Now that you have labeled your product (money), track your money with our Scanpaq.net inventory tracking and retail system.

## TOPOGRAPHY- SIGMA SCANNING AND LABELING.

ERP From HQ to Plant based on SQL server . Sigma DB houses product data and SIGMA Encompass.net Labeling and scanning applications

All data is then uploaded to ERP/HQ Servers for evaluation, financial/accounting.

Seamless integration with our LABELpaq labeling systems. Track ALL movements of your product in your facility out to the trucks. Print all shipping documents and invoices.

All systems networked
